

OMAR IBAÑEZ

Tijuana, México | +52 664 151 8710 | omaribannez@gmail.com | omaribannez.com

Software Engineer. BriteCore. March 2019 - Present

» *Researched, designed, and developed a file storage microservice to be used by thousands of users.*

Engineering Lead. Eastridge Workforce Solutions. January 2017 - March 2019

» *Recruited all the starting engineering team members for the Tijuana office.*
» *Coordinated employee benefits, equipment management, and office administration.*
» *Improved the platform speed by optimizing SQLAlchemy queries on the different microservices.*

Software Engineer. Feedb. July 2016 - January 2017

» *Improved customer support by implementing Sentry and monitoring tools on the codebase.*
» *Reduced load times by implementing infinite scroll and other JS loading techniques.*
» *Developed a Zapier app to give our customers the option to integrate Feedb to their workflows.*

Software Engineer. Global Hawk Insurance Company. October 2014 - July 2016

» *Managed distributed teams in India, Mexico, and the USA.*
» *Developed prototypes to test ideas at a very fast pace.*
» *Improved communication and delivery time by implementing agile methodologies.*

Software Engineer. EmpresaPyME. February 2014 - October 2014

» *Researched, designed, and developed an automation system to help accountants manage hundreds of clients.*

Software Engineer. LevelUp. May 2012 - February 2014

» *Improved the platform's security by running a black-box penetration testing, and delivered a report to their engineering team (I got hired after I hacked them).*
» *Developed a forum system for the core platform, used in levelup.com, qore.com, and tarreo.com.*
» *Managed the front-end team for the redesign of levelup.com*

Software Engineer. Merchant de Mexico. January 2011 - May 2012

» *Provided support and made improvements for the legacy Delphi 7 billing and inventory system.*
» *Developed a new C# billing and inventory system to replace the legacy one.*
» *Coordinated a contractor team to upgrade the company's infrastructure.*
